

Learning workshop

for apprentices and students

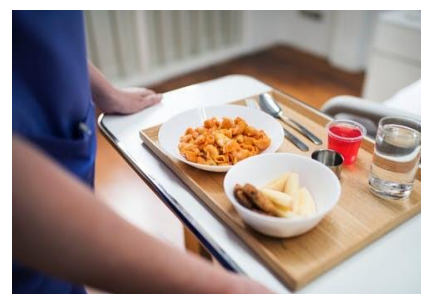

in **Vicenza**

between Verona and Venice

What is a learning workshop? It combines professional **knowledge**, learning **contents** in the vocational training or studies, **self-organised** and guided learning, **intercultural** experience and personal **development**.

- **Know-how:** through lectures and job shadowing, participants learn how theory and practice mix
- **Consolidation:** the contents of the learning workshop are defined in cooperation with the sending institution; they relate to the curriculum of the vocational school or university
- **Self-organised and guided learning:** the participants are accompanied by teachers who guide and supervise the project tasks during the learning workshop; they also encourage self-initiative, e.g. job shadowing, and analyse the experience gained
- **Intercultural experience:** the participants live among local people, in an Italian building, communicating with hands, feet and English
- **Personal development:** define the goals of the experience abroad, learn Italian, assert yourself in an unknown situation, enjoy the country, produce results

**Learning workshop =
a plus for your job, a plus for your future**

The programme takes place mainly in **Vicenza**. Part of the programme is planned in **Venice, Verona or Padua** too. It includes time enough to enjoy the beautiful cities and the Italian culinary diversity.

**Palladio's
masterpiece: since
1994 UNESCO World
Heritage Site**

**small big city:
111.000
inhabitants**

**dynamic city:
over 84.000
companies**

Eurocultura	organises the learning workshop in collaboration with the sending organisation; translates the lectures; accompanies participants in the companies in the first day of job shadowing; looks for accommodation; organizes local transport and excursions (for example to Venice, Verona or Lake Garda). Technical equipment will be provided as well as support to the learners and certifies the learning workshop (certificate of participation, Europass...)
Costs	on request

Eurocultura

Eurocultura has been organising international training courses in Vicenza since 1995. Every year our courses are attended by nearly 300 professionals from all over Europe. Eurocultura places about 250 trainees per year - during and after their training or studies - in a company in Vicenza or the surrounding area. Within the framework of projects, current topics to be dealt with are refugees and vocational training, entrepreneurship or inclusion at school. We have been collaborating for years with institutions, public schools and private agencies from Sweden, Norway, Finland, Denmark, Iceland, Poland, Greece...
